General Information

ESTABLISHMENT

The Henderson Normal Institute is a school established and conducted to afford the colored people an opportunity of obtaining a good education. It is part of the missionary work of the United Presbyterian Church, which has always taken a deep interest in the welfare of the colored race. Having opposed slavery as a principle, it was natural that as soon as slavery was abolished this church should show its interest in the future of the freedmen by doing what it could for their moral and intellectual development. In 1862, while the clouds of war hung heavily over the whole land, it began its educational work for the newly freed slaves. The first school was established in Nashville, Tenn. Schools have since been established in many places and churches organized. The members of the churches in the North have given freely of their means to support the work and to afford the colored people an opportunity of rising and enjoying the blessings and advantages which God has opened to all in this free land. The United Presbyterian Church gives each year nearly \$70,000 in money, besides many contributions in other forms, to carry on the work it has undertaken for the colored people.

LOCATION

Henderson is situated in the northeastern part of North Carolina, and is a flourishing town with a population of about 8,000 inhabitants. Its white citizens are distinguished for enterprise and sturdy character. The climate is free from malaria, salubrious and unsurpassed for healthfulness. The town has excellent railroad accommodations, being on the Seaboard Air Line and Southern Railways. It contains first-

MAIN BUILDING

FULTON HALL

class electric light and gas plants, a telephone exchange and a fine system of water works and numerous manufacturing establishments. The Western Union and Postal Telegraph Companies and Southern Express Company have offices in the town.

BUILDINGS AND GROUNDS

The Institute occupies a beautiful site just outside the corporate limits.

The Main Building contains chapel, reading room, library, study hall and recitation rooms. The chapel has seating capacity for 500 persons, and each room is commodious, well lighted, ventilated and provided with many of the modern equipments for school work.

The Teachers' Home occupies a commanding place near the center of the large campus. The house is very beautifully located.

Fulton Home is an L-shaped two-story building, 113 feet by 63 feet, with a basement under the entire building. It contains sewing room, matron's office, parlor, dining room, kitchen, bath rooms, laundry, domestic science department, and bed rooms. This building was erected and furnished at a cost of nearly \$12,000. It is supplied with a modern steam-heating plant, electric lights, hot and cold water for laundry, kitchen, bath rooms and dining room. The building is plainly but neatly furnished, and will accommodate about seventy-five girls.

The Boys' Dormitory is a large L-shaped two-story building containing apartments to accommodate seventy young men, and printing office.

The Principal's Home is a two-story building and adds much to the appearance of the campus.

Jubilee Hospital is a two-story brick building, containing three wards, (men's women's and children's), private rooms, office, operating room, dining room, kitchen, bath rooms and laundry.

Miscellaneous.—In the above, reference is only made to the more important buildings of the Institution.

Several acres are given up for recreation grounds.

To preserve the health and to promote the physical development of the students, outdoor exercise is encouraged and cordial support is given to athletic sports. The large campus affords ample grounds for the Institute baseball diamond and football field, besides the space set aside for lawn tennis courts and basketball. All students are encouraged to take an active part in one or other of these sports, but the idea that athletics should hold first place in school life is not tolerated.

The drainage of the grounds is perfect. On part of the grounds is planted an orchard of apple, peach, pear, cherry, and plum trees. Still another part is used for farming, gardening and pasturage for stock.

RELIGIOUS PRIVILEGES

The daily sessions of the Institute include a service of singing, reading of Scripture and prayer. All students, without exception, are required to be present at this service. Regular weekly prayer meetings are held on Wednesday nights. Sabbath School is held in the Institute chapel on Sabbath afternoons, and services are held at the church on Sabbath mornings and evenings. The students find ample field for Christian work in connection with the Ladies' Missionary, Young People's Christian Union, Intermediate, and the Junior Societies. All students are given daily instruction in Biblical lessons and history.

The Young Men's Christian Association is another feature of the work that is helpful. It was organized some time ago and the young men show much interest in it. They hold a meeting every Sabbath afternoon and also keep in touch with the general work of the Y. M. C. A. by sending a delegate to the annual conventions.

A Young Women's Christian Association has been organized. This Association is having a good influence on the young women of the school and community.

To aid the students in cultivating literary tastes, and to train them in the expression of their thoughts, and also to teach them the form of parliamentary procedure, three societies are organized and maintained. The students from the Sixth grade through the Eighth constitute one society called "The Philomathean Society." This is directly under the management of a teacher. The other societies, "The Cook Literary Society, and the Fulton Literary Society, are composed of the students in the Normal Department. In these societies the students have more freedom in the management of the society work, though they are also under the supervision of a teacher. The societies have proved very helpful in the past and afford an excellent opportunity for training in work which will be of advantage to the pupils in after years. A Rhetorical class has been organized, which is directly under the charge of a teacher. This class meets twice each month and renders the performances which are assigned by the teacher in charge. This Rhetorical class is composed of the members of The Cook and Fulton Literary Societies

HOME TRAINING

We are endeavoring to make this training of our students a most valuable part of their education. By regular inspection of rooms, we hope to inculcate habits of tidiness and taste in the arrangement of articles of furniture. We give special attention to our students in order to train them in matters pertaining to dress, health, physical development and the simple rules of etiquette. The girls are under the constant care of the matron and the other lady teachers, and are not permitted to leave the grounds unless accompanied by some teacher. All are taught that expensive wearing apparel is not only unnecessary, but that the Institution wants

nothing but good, plain clothing. Calicoes, gingham and plain worsted neatly made, and colored under skirts are best for school use.

All students will be required to share equally the work of keeping the buildings and grounds in good condition.

THE BOARDING DEPARTMENT

This department is conducted as a Christian home. The discipline is parental in character and aims to develop Christian manhood and womanhood. The rules are few, and in general those of a well regulated household, and are administered with firmness and impartially. Each student is required to give an hour a day, on the average, to some form of labor, as directed by the institute. This is conducive to good health and right habits, and renders it possible to keep the price of board at a lower rate than could otherwise be done.

HOSPITAL AND NURSE TRAINING

We are beginning to realize as never before that we must give attention to the care of the body as well as the training of the mind. More colored people die from lack of proper nursing than from any other cause.

For some years we have hoped to add to the school the department of Nurse Training in connection with a hospital building. This hope is now realized.

The Women's Board of the church has built, just outside the main campus, a modern hospital. This building has been erected at a cost, including furnishing, of nearly ten thousand dollars. Colored girls are now greatly in demand for nurses. Nurse training therefore, offers a great field for girls.

A competent trained nurse is in charge, and a Nurse Training Department is open for training girls.

The Hospital is the means of relieving many of the sick

JUBILEE HOSPITAL.

CARPENTER SHOP

and suffering of the town and community, as there is not a hospital within a radius of forty miles into which colored people are admitted,

During the first year after the opening many patients were treated with a very small mortality.

Students in the Institute who need medical attention, are cared for in the hospital under favorable circumstances for speedy recovery, and at the least possible expense.

Candidates for Nurse Training must be of good moral character and at least eighteen years of age, and must have a literary education equivalent to the completion of the first year Normal in the Institute.

INDUSTRIAL DEPARTMENT

For 20 years a Sewing Department has been maintained in connection with the school. The purpose of this department is to teach all the girls in the school to do plain sewing, and to cut and make their own garments. A competent teacher gives her whole time to this department, and from 150 to 200 girls, in five classes, receive instruction nearly one hour each day. During the year many hundred garments are made, and these are sold to the pupils for the cost of the materials.

Girls in the lower grades who know nothing about the use of the needle are given models, which include all the stitches used in plain sewing. These models follow one another in regular order. Along with this work, is sometimes given other work, which includes the stitches that have been learned in the model work.

A regular dressmaking department has been added. Pupils who are prepared, may make a specialty of Dress Making. Boarding students will be required to take at least two subjects in the literary department.

The girls of the Fourth Normal Class are required to make their graduating dresses.

Young ladies, who, having finished the First Normal

Class and gained a complete knowledge in dress-making, cutting and fitting, are given a certificate certifying that they have successfully finished the course. Persons who are not students may take lessons by paying a small amount.

Pupils who are regular students, and have not completed the First Normal Class, are required to take at least two studies with their special work in sewing. Persons who desire to study drafting, cutting of patterns, may also do so. The McDowell system being used. The teacher in charge examines every garment before allowing it to leave the room.

DOMESTIC SCIENCE

COOKING

In the kitchen of the Boarding Department, instruction is given not only in proper methods of preparing food for the table, but in the nature and nutritive value of the various articles in common use for food, and in their comparative cost.

How to spend money wisely and economically in the purchase of provisions for the household is a question which deserves much more attention than is usually given to it. Health and prosperity are often sacrificed through the want of knowledge on this subject.

DOMESTIC SCIENCE

A spacious room is fitted up on the first floor of Fulton Hall for Domestic Science. It contains a coal, gasoline and gas range, cup-board, tables and the necessary utensils for making it a model kitchen.

All the girls in the eight grade and fourth normal inclusive are required to take Domestic Science, and others outside of these grades are at liberty to take it if they make it convenient to do so.

A small fee of ten cents per month is charged to pay for the material used. There were eighty eight enrolled in this department during this year.

The students are taught the classes of food, also the different modes of preparing and serving them so as to be pleasing to the eye, palatable and nourishing.

Some time is also taken up in the preparation of dishes for the sick, in order to teach the students to serve them in the daintiest and most tempting way possible.

Instruction is given in waiting and serving the table, care of silver, sinks, towels, tables, etc.

Stress is also laid upon cleanliness and economy, and how to turn over the "odds and ends" of left overs into appetizing dishes.

Theory and practice are given along the above stated lines so as to make it both helpful and practical.

A special course of two years has been arranged for those desiring to finish the work in this department, and a certificate will be given certifying the same. The ones desiring to finish the course must be as far advanced as our First Normal, and must average at least two periods a day of actual work. The course will include the chemistry of foods, plain and fancy cooking, cookery for the sick, waiting, and serving, marketing, laundering and general house work.

PRINTING

Industrial Departments have been added for the boys. The colored people are making rapid progress in knowledge, and taking a more intelligent interest in business. In consequence they are beginning to publish their own papers; and each year the papers published by them and in their interest will increase. There will, therefore, be openings for practical printers. It is important for the best interest of the race that these papers should be conducted by good men—men who have a Christian training. The object of this department is to give several students each year a practical training in the work.

A small monthly paper is published by this department in the interest of the school. It gives much information each month about the school, and other good, helpful read. It is sent to subscribers for only 25 cents a year. The department also does job work at low rates.

Students Taking Special Course in Printing.

Robert Edwards

CARPENTRY AND MANUAL TRAINING

This department has been in operation during the past

three years. A large room in the basement of the Boys' Dormitory has been fitted up, and well furnished with tools. Repair work of the Institution is done in the shop. Manual Training is also taught, which is followed by a more practical use of tools. Students are taught to square models, lay out work, cut to the line, do joinery work, cabinet work, and practical carpentry. All young men in sixth grade and above, are required to take some part of this work.

BROOM MAKING

A well equipped Broom Making department has been added this year. The machinery has been installed, and a competent instructor placed in charge of this department. Brooms for the Institute and market are being made, and students are given an opportunity to learn the trade, without any extra expense. This department is proving very helpful.

VOCAL MUSIC

Special instruction and concert practice in chorus, glee, quartette and solo singing will be continued through the coming session. Vocal music will be given in all departments free of charge, but students in the advanced department will be required to purchase books.

INSTRUMENTAL

Instruction upon the piano and organ will be given for \$1.00 per month, including the use of the instruments.

CLOTHING AND UNIFORM

It is of greatest importance that students be properly clothed; not only is it necessary to the preservation of their health, but it is valuable in teaching them economy and correct ideas of dressing. All students in Fulton Hall are requested to purchase and wear uniforms designated by the faculty. This uniform is requested as a matter of economy and to improve the appearance of the students as a body. Circumstances of some students make it possible for them to obtain much more expensive clothing than is possible for others. This difference in dress causes a feeling of caste, and frequently results in many students remaining out of school because they cannot compete, in dress, with some more favored student. The uniform, then, prevents this undue attention to the subject of dress, and at the same time cultivates taste and neatness.

Parents are requested not to provide new outer garments for their daughters before sending them to school, but to invest the money in uniform.

Fancy dresses and white undershirts are not permitted. The young women of Fulton Hall are required to be provided with at least one woolen skirt and three cotton waists. The woolen skirts are made of navy blue serge, and the shirt waist of navy blue percale. White waists will be permitted only on occasions when the girls appear in full uniform.

Skirts may be obtained for from \$4.00 to \$6.00 each, and when the whole suit is desired the price will be \$7.00 to \$10.00. Oxford caps are used and cost about \$1.25 each.

Each girl is required to provide herself with two gingham aprons for industrial work, and is required to mark all wash garments.

THINGS REQUIRED

1. Registry of names at the office, getting a permit to class.
2. Attendance on prayers each school day.
3. Strict observance of study hours, retiring at 10.p. m.
4. Strict observance of the Sabbath, attendance on public worship thrice a day.
5. Promptness in all exercises and classes.
6. All rooms must be put in order before 8:30 a. m.
7. Respectful behavior to teachers and others.
8. All regulations to be strictly observed.
9. Excuse will be granted for no absence except for the student's severe sickness, and that must be obtained from the office before the student attends recitation again.
10. Each student must have a good, portable Reference Bible also a medium size English dictionary, rubber overshoes or boots, and an umbrella. Young ladies must have these articles. If they do not bring them they will be required to get them here. Health and economy demand them, and health alone is wealth. Dampness of shoes and clothing lay the consumptive on his death bed. For the want of a dollar umbrella a twenty dollar suit is ruined in one shower, while a 50 cent pair of rubbers will double the life

of a pair of shoes. To remain at home when it storms cheats us out of much valuable time. Suitable storm clothing meets the whole case and gives health and wealth. Each boarder is requested to bring bed linen, which includes two sheets and two pillow cases. Those who find it inconvenient to bring linen may be able to purchase some here at about the cost of material.

11. An average of at least 70 per cent must be made before a subject is considered finished. Daily grades count two-thirds and examinations one-third. These grades are placed on record each term. A record of the conduct of each student is also recorded each term. Three months are considered a term.

12. **All bills must be settled before baggage is taken from building.** Students whose bills are not paid at end of each month may have their names dropped from the boarding department.

THINGS FORBIDDEN

1. Unpermitted association of ladies and gentlemen, communication in writing between them, or visiting to the halls or rooms of the other.

2. Leaving the school or the institution without permission.

3. Leaving the school without the consent of the matron and Principal. Parents desiring their girls to leave the building must notify the Matron or Principal.

4. **Absence from the room during study hours.**

5. Boisterousness, dancing, running in the building, singing in the halls at any time, or in the rooms during the hours of study.

6. Games of chance, profane or indecent language, the use or possession of tobacco, snuff, intoxicating liquor or of weapons of any kind.

7. Calling, conversing or throwing from the windows.

8. Injuring or defacing the building or other property either of school or others.

9. Removal of furniture or bedding out of the building or from one room to another.

10. Leaving lamps burning during an absence from room of more than fifteen minutes; carelessness about stoves or having a large fire after 9 o'clock p. m.

11. No light literature is allowed among the students.

12. Visitors cannot be received during school or study hours by students, and gentlemen, unknown to the Matron or Principal, are not permitted to see lady students at any time, unless they bring letters of introduction from parents or guardian to the Matron or Principal, and then subject to the discretion of the Principal.

13. Students cannot entertain other students, their friends or strangers, in room over night without permission from their Matron.

14. Students cannot receive or make calls on Sabbath unless under unusual circumstances.

Day scholars are subject to the same rules as boarders, respecting studies, attendance and behavior.

Persons unwilling to keep these rules are invited not to come. Violations will be punished by penalties in accordance with the gravity of the offence.

DEPARTMENT OF LITERATURE

ENGLISH LITERATURE

The course of English Literature takes the students over the history of the subject as found in Painter's English Literature. The idea is to give the students a historical perspective of the literature of his own tongue. The work is not confined to the text book alone, but in addition, students are required to look up important subjects. Special attention is paid to the great authors.

The class next year will study with the instructor, Shakespeare's "Hamlet," "Romeo and Juliet," and "Macbeth;" two books of Milton's "Paradise Lost," Dryden's "St. Cecilia's Day;" Pope's "Rape of the Lock;" Goldsmith's "Deserted Village," and "The Traveler;" Burns's "Cotter's Saturday Night," and shorter poems; Wordsworth's "Ode on Immortality," and Tennyson's "Locksley Hall," "The Princess," and "In Memoriam." Besides the class work, the students will be required to spend extra time in reading some of the longer productions from standard authors and to hand in original essays on what they have read.

AMERICAN LITERATURE

The course in American Literature is conducted along the same lines as that of the English, or more properly speaking, British Literature. Such works have been taken up in a class as Irving's "Rip Van Winkle," and "Legend of Sleepy Hollow;" Hawthorne's "Rill from the Town Pump," "Lady Eleanore's Mantel;" Poe's "Tell-Tale Heart," "The Premature Burial," "The Fall of the House of Usher;" Bryant's "Thanatopsis," and "The Flood of Years;" Longfellow's "Evangeline;" Lowell's "Sir Launfal," and "Indian Summer Reverie;" "The Chambered Nautilus," and "Bill and Ice."

EXPENSES

Henderson Normal Institute aims to make it possible for every young man or woman of energy and pre-severance to secure a good education. The charges to the students are practically nominal and in no respect meet the actual cost of the advantages furnished them. Contributions from the church pay all the salaries and for equipments. All students will be charged a nominal tuition, the amount depending on the class.

A small fee will be charged each term for laundry expenses.

EXPENSE OF BOARDERS

One Term—12 Weeks.

Entrance Fee.....\$2.00

Board, light, fuel, room, \$6.00 per month if paid in advance. \$7.00 per month if not paid in advance.

Four weeks are considered a school month.

Students remaining during Christmas holidays will be required to pay board.

Money will not be refunded to students leaving school except in case of protracted illness.

All bills are due in advance. If board bills are not paid within three days after they become due, one dollar extra will be charged.

ALUMNI

*Deceased

1896

Thomas Burwell

1897

Anna M. Hall, Teacher, Raleigh, N. C.

Mary N. Watson—Mrs. Hodges

*James Wimbish

Eddie Wyche, Philadelphia

Jas. Tinsley, M. D., Weldon, N. C.

1898

Susan Allen

Joe Thomas, Miner

John Hawkins, Charlotte, N. C.

Willie Steele, Carpenter

Tom Watson, Charleston W. Va.

1899

Lucy O. Watson—Mrs. Foot

Willie Green, Carpenter

Oscar Bullock, Minister

*Frank Bullock

1900

Sallie Watson—Mrs. Patillo

Dinah Alston—Mrs. Bruce

Allen Hawkins, Charlotte, N. C.

1902

Ella Hawkins—Mrs. Brice, Indianapolis, Ind.

Gertrude Lawrence—Mrs. Madison

Albert Cleage, M. D., Indianapolis, Ind.

J. A. Alexander, Minister

1903

Bettie Taylor, Teacher, Townsville, N. C.

Nathaniel Mitchell, Teacher, Wake Forest, N. C.

William Bruce, M. D., Winston-Salem, N. C.

Annie J. Williams, Teacher, Williamsboro, N. C.

1904

Pattie Taylor (Mrs. Jones) U. P. Mission, Athens, Tenn.
Phoebe Perry, Teacher, Wheeling, W. Va.
Willie Height, (Mrs. Berry) Kings Mt. N. C.
Peter Jones, Teacher, U. P. Missions, Athens, Tenn.

1905

Gilbert Bullock, Miner, Ind. Ter.
Chester A. Eaton, M. D. Lumberton, N. C.
Peggie Long, Teacher
Maggie Mitchell, Raleigh, N. C.
Addie Royster, U. P. Mission, Townsville, N. C.

1906

*C. C. Mayo
T. C. Tinsley, M. D., Henderson N. C.
Lizzie Wilson, Teacher, U. P. Mission, Annemanie, Ala.

1907

T. J. Bullock, Teacher, Wilmington, N. C.
*Claudius Peters
Josephus Wyche, Teacher, Charlotte, N. C.
Marie Bowling, Teacher, Albany, Ga.

1908

Sallie B. Davis, Teacher, Nut Bush, N. C.
Willie E. Bullock, Hampton, Va,

1909

Buelah Bullock, Teacher, Henderson N. C.
Daisy Dunn, New York
Georgia McKinney, Teacher, Elise, N. C.
Hattie King, Teacher, Henderson N. C.
Ulysses Dunn, Student, Lincoln University
James Bullock, Student, Lincoln University

1910

Mattie Mitchell, Student, Shaw University
S. H. Bullock, Student, Knoxville College, Knoxville, Tenn.
Sallie Fields. Teacher, Camden, Ala.
Nannie Jones, Teacher,

1911

Eddie Hamilton, Student, Howard University
Leanna Barnes, Nurse training, Philadelphia
Izora Brent, Teacher, Norlina, N. C.

Bessie Stanley, Teacher, Athens, Tenn.

Mary Cox, White Plains, N. Y.

1912

Homer Carter, Student, Memphis, Tenn.

Annie Hardy, Teacher, Miller's Ferry, Ala.

Rosalee Johnson, Teacher, Nuse, N. C.

Mrs. G. E. Little, Matron, Miller's Ferry, Ala.

J. W. Rogers, Student, Knoxville College

C. S. Scott, Student, Knoxville College

1913

John Alston, Student, Lincoln University

Bertha Arrington, Teacher, Halifax, N. C.

Susie Arrington, Teacher, Rocky Mount, N. C.

Rufus Brent, Student, Howard University

Cleo Dix, Instructor in Music, Philadelphia. Pa.
